

## Find Your Ring Size

Match one of the circles below with the inside of one of your rings.  
Half sizes are determined if your ring falls between two of the circles.

Ring measurements are very precise. Rings should fit your finger comfortably;  
snug enough to that it will not fall off, but loose enough to slide over your knuckle.

If you are unsure about your ring size,  
please call to request our complimentary ring sizer.

Prior to printing, ensure that Page Scaling is set to "None" on your print dialog box.

To make sure this guide is printed correctly, place a quarter where indicated.

The quarter should fit completely over the image so that all the lines are covered, without the quarter hanging over any edges.
